

HEATER OPTIONS

- FEATURES: W FAN-FORCED
- 1000 watt and 1500 watt, 120 volt
- Smart Limit Protection®, UL listed , ASSE approved for wet and damp locations.
- Dual Open-Coil Element C-Frame Motor 4-Blade Aluminum Fan Quiet
- Inlet and outlet sensing
- 20 gauge powder-coated grille with contemporary die-formed round corners
- Heaters provide air movement at 85 CFM. Fan
- Motor is permanently lubricated, C-frame type with impedance protection and sealed bearings.
- It is equipped with a dynamically balanced four-blade aluminum impeller fan, located the upper portion of the heat box, and shall provide a down-flow heating pattern.
- Elements are constructed of coiled Nickel Chromium alloy, corrosion-resistant wire strung through a minimum of four rows of mica insulator.
- Thermal Overload: Heaters are equipped with thermal overload Smart Limit Protection®, which disconnects elements and motor in the event normal operating temperatures are exceeded. If thermal overload trips due to abnormal operating temperatures, thermal overload shall remain open until manually reset by turning the heater off for fifteen minutes.
